

Fusion

Product Description:

Fusion - ACM Panels are the perfect solution for all your exterior and interior cladding needs. Panels are made from the highest quality materials, ensuring durability and longevity.

Constructed of two layers of aluminium skin with a core of fire retardant mineral filled thermoplastic, making the panels extremely lightweight, strong, easy to install and suitable for a wide range of applications.

In addition to their stunning appearance, our panels are also highly functional, weather-resistant and require minimal maintenance.

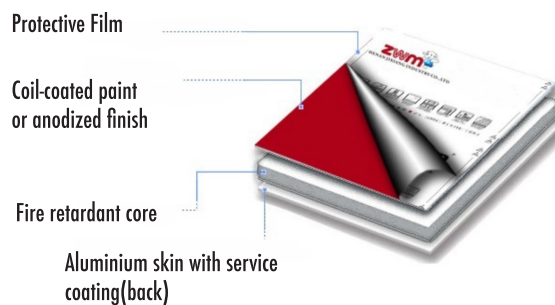

Not only is this a cost effective solution for any project our panels are also eco-friendly and recyclable, ensuring a sustainable future for our planet.

Specifications:

Aluminium composite panel - High gloss, white both sides.

Product Information:

Panel Thickness:	4mm	Advantages:	Fire Retardent, Easy installation, Light, Recyclable
Length:	2440mm	Certification:	CE, ISO9001
Width:	1220mm	Aluminum Alloy:	Grade 1100 / 8100
Aluminium Thickness:	0.21mm or 0.3 mm available	Packaging:	Wooden pallet, Plywood case
Coating:	PE	Weight:	4mm - 12 kgs per pcs
Year life:	PE can keep 5-8 years		
Applications:	Interior, Exterior, Signage, Industrial
